Product features

This 26.8 cu.Ft. KRFF507ESS French Door Refrigerator helps maximize the freshness of produce with the Preserva® Food Care System. The system combines three distinctive features including an ethylene-absorption cartridge that helps keep produce fresher longer. The refined interior design features LED lighting, and metallic accents add a touch of elegance. W- 4624623

The FreshFlow™ Air Filter helps minimize odors while the FreshFlow™ Produce Preserver helps delay over-ripening

2-Tier Freezer Drawer with Storage Dividers-Allows you to organize frozen items on two levels, making them easier to access, and includes storage dividers in the lower basket

This refrigerator features Satin Textured Handles with iconic KitchenAid Brand Medallions, a beautiful chrome frame surrounding the exterior water and ice dispenser and the KitchenAid® Badge

Electronic Temperature-Controlled Pantry- Optimizes freshness for specialized items by providing precise settings for meats, deli items, party platters, and wine

Metallic Accents on Shelf Trim-Provide a touch of elegance and complement the high gloss interior finish of the refrigerator

Humidity- Controlled Crispers-Provide adjustable humidity control, giving you a dedicated storage option to keep fresh food at optimum humidity levels

LED Lighting- Unlike incandescent bulbs, LED lights use less energy, are maintenance-free and never need to be replaced

Slide- Away Split Shelf-Helps maximize the storage space and optimize the organization of your refrigerator. The versatile design allows the front of the shelf to retract to accommodate tall items

Light Touch Controls- Provides easy operation by providing touch-pad controls for all refrigerator functions

Online Availability: ✓ In-stock

Product features

This beautifully designed top control KDTM704ESS Dishwasher harnesses the power of the Dynamic Wash Arms to provide complete water coverage and superior cleaning. The unique design has nine arms that directly spray water everywhere in the dishwasher, including hard to reach places. It also features exclusive Clean Water Wash System that continuously cleans the wash water for superior performance, even with the heaviest loads.

The ProWash™ Cycle determines the ideal cycle for washing dishes based on soil level and then makes real-time adjustments to achieve the best cleaning performance

ProScrub™ Option helps eliminate soaking or pre-scrubbing with 40 targeted spray jets that help remove stubborn messes like seared or baked-on foods

Advanced ProDry™ System delivers the best drying performance without rinse aid* using a recessed heating element and a fan to draw moisture out of the wash tub giving you better drying results

SatinGlide® Max Rails in the upper and lower racks create a smooth, premium feeling when pulling out the upper rack, particularly with heavy loads

Premium adjusters in upper rack raise and lower the upper rack with ease to accommodate tall items

Concealed controls offer tucked away controls on top of the dishwasher door, providing clean, uninterrupted front panel lines that help you match other stainless steel appliances

Third Level Rack makes it easy to clean hard-to-place items such as spatulas, serving utensils and measuring cups, freeing up space in the lower two racks

Express Wash quickly and effortlessly handles the heaviest soils, even stubborn baked and seared-on messes in less time

Clean Water Wash system continuously removes food particles from the wash water. Plus, there's no need to ever remove and clean the filter

Product features

For fast and responsive cooking, induction can't be beat. This Kenmore Elite 30" convection induction slide-in is our most advanced cooking technology for the cook who want it all - speed, responsiveness, easier clean-ups and energy efficiency with a sleek streamlined look. No other cooking method compares to induction's speed when it comes to bringing liquid to a boil - boiling faster than radiant elements. W-2242623

The Temperature Probe allows you to set the desired finished temperature and alerts you when that temperature has been reached. True Convection prepares evenly baked and beautifully browned foods throughout the oven on all three racks, even when filled to capacity. A digital display with Blue LED ensures consistent cooking results every time. Total Lockout is the ability to lock controls, cooktops, and oven doors, which is an important safety feature for families with children. Two halogen oven lights allow for better viewing of food without having to open the oven door. Rear wheels can be adjusted at the front of the range which helps making installation easier.
